ELIXIR KIT_936

The system installed inside the basin helps you practice three holistic treatments, for the psychophysical well-being and beauty of skin and hair. The **Flower Water** treatment consists of a gentle flow of aromatic waters enhanced with essential oils, with soothing, softening and moisturising effects. **Snehana**, an ancient Ayurvedic art, focuses on specific oil to deeply nourish skin and hair, giving them softness, silkiness and shine. **Shirodhara**, a powerful Ayurvedic treatment, promotes psychophysical well-being through a holistic approach, inducing calm and deep relaxation. This addictive ritual balances heat and energy throughout the body, nourishing the tissues and moisturising the hair with essential oils for an aromatic experience and a feeling of relaxation and tranquillity.
